SUMMARY

Senior Full Stack Engineer with 6+ years of experience building scalable, high-impact web and mobile applications. Expertise in React, Next.js, Node.js (Nest/Express), Python (Django) and AWS/Serverless environments. Proven success owning product features end-to-end, driving quality and performance improvements, and collaborating asynchronously in remote teams. Strong communicator with a focus on clean code, developer experience, and measurable product outcomes. Open to full-time remote roles with US and global teams.

TECHNICAL SKILLS

Programming Languages	JavaScript, TypeScript, Python, SQL
Frontend	React.js, Next.js, React Native, Redux, Tailwind CSS, Storybook
Backend	Node.js (Nest.js, Express), Django, GraphQL
Cloud & DevOps	AWS, Serverless Framework, Docker, Terraform, Unix/Bash
Databases	PostgreSQL, MongoDB
Tools	Git, GitHub, Expo, Vercel
Integrations	WhatsApp Business API, HubSpot, Payment Gateways, In-App Purchases

WORK EXPERIENCE

Treble.ai — *Remote • Medellín, Antioquia, Colombia*
Software Engineer — *January 2025 – Present*
- Lead development of core features for a WhatsApp-first customer engagement product with CRM integrations, improving reliability and user experience, focused strongly on adoption and retention.
- Enhanced CRM syncs and message workflows by implementing caching and robust error handling, reducing integration failures and production incidents.
- Partner with product/design to ship features quickly while preserving quality through code reviews, automated tests, and architecture alignment.

Headcount365 — *Remote • Medellín, Antioquia, Colombia*
Senior Full Stack developer — *March 2023 – December 2024*
- Owned end-to-end delivery of high-impact front-end features on a workforce analytics platform using **React**, with collaborative backend enhancements in **Django**.
- Introduced structured planning, estimations, retrospectives, and technical standards to improve team predictability.
- Built and maintained UI components in **Storybook**, improving consistency and speeding feature development.
- Worked closely with backend engineers to ensure performance and resilience of shared services.

Red Valley S.A.S — *Remote • Medellín, Antioquia, Colombia*
Mid Senior Full Stack developer — *February 2022 – July 2023*
- Delivered **React Native applications** with maps and in-app purchase flows deployed to **iOS/Android**.
- Built backend APIs in **Nest.js** and maintained front-end **React** features across web projects.
- Increased code reuse and UI consistency by adopting component-oriented development practices.

Huge Inc — *Remote • Medellín, Antioquia, Colombia*
Mid Senior Front-end developer — *August 2021 – February 2022*
- Built a design-system-ready UI component library using **Rollup** and emotion for a complex internal SSR application.
- Implemented responsive, accessible UI components consumed across multiple product pages.

Red Valley S.A.S — *Remote • Medellín, Antioquia, Colombia*
Junior Full Stack developer — *May 2020 - August 2021*
- Implemented server-side APIs with **Nest.js** (Fastify & Express) and delivered multiple **React** applications.
- Created SEO optimized landing pages using **Gatsby**, improving organic traffic and lead generation.
- Deployed services to **AWS** with **Terraform**, **Docker**, and CI workflows.

Freelance Roles — *Remote • Medellín, Antioquia, Colombia*
Junior Full Stack Developer — *May 2018 – May 2020*
- Built front-end with Ionic + Angular and integrated with **Django** REST APIs.
- Developed a **React**/GraphQL web app for payment projection and reporting, containerized with Docker.

EDUCATION

***EAFIT University*, Medellín, Colombia** — January 20217 - December 2022
Bachelor's in computer engineering — *GPA 4.1/5.0*

***La Salle Ramon Llull* University, Barcelona, Spain** — September 2019 - January 2020
Exchange program in Computer Science
Courses: Data mining, Web Projects, Computer Architecture, Project Management, Operative Systems
